

MATCON®

MB 310 A

The MB 310 A Emergency Safety Shower / Body Shower or Drench Shower / Deluge Shower suitable for outdoor use (frost protected by means of self draining) and floor mounting. The self draining valve is located above the ground, the self-draining valve needs to be protected against frost by means of electrical trace tape heating and insulation, we can also provide this for you. Special Shower head (spray angle 60° and gives rotation to the water) for an effective and efficient operation. The operation will be done by means of Push Flag (push down for operation). The unit can be mounted on the floor by a mounting plate. The Body Shower drains empty after usage. The self-draining valve can also be installed underground (model MB 310). Minimum water pressure is 2 bar.

MB310 A

Specifications:
