

MB 1 Mobile Eyebath

Description

The MB 1 Mobile Eyebath / Face Wash Fountain is an eyebath that is light, compact and easy to carry. The system is under air pressure and guarantees a long-lasting good spray pattern.

Contents 1 liter and has a rinsing time of about 7 minutes!

The cylinder is made of stainless steel (incl. pictogram) and has a capacity of 1 litre. This system is available with a fixed sprinkler or with a flexible hose. Available with bag and shoulder strap or option to wear on a belt.

Due to the compact design, this system is very easy to carry and you have a long-lasting spray pattern. Furthermore, this system is easy to maintain and easy to pressurize.

Operation is via the hand control on the hand shower and central lever on the cylinder which can be locked for easy use. The system is easy to maintain yourself and to make it ready for use (also on air pressure). Conditioning agents are available to make the water last longer.

There is also a [2-liter variant](#) available of this product.
