

Overall disposable (limited life use) material with Capuchon

Description

Splash suit Overall / one piece combination suit with hood (or without), can be supplied in many different styles and is a chemical resistant one-piece work suit with fixed hood. Special attention is given to design features to offer maximum comfort and protection against harmful chemicals.

The suits are user friendly to work with and designed for safe practical use.

Also in this case the suit is made of a material with a limited life use, but it can also be made of a reusable material.

Materials: PVC, antistatic and flame retardant PVC, Neoprene, butyl, Hypalon / Neoprene / Butyl, Viton Butyl on Polyester, MAT TECH (material with limited useful life), etc.

We also have a reusable version of the Overall.
