

MB 10 W Hand Held Eyebath – single 90°

Description

MB 10 W (Wall configuration) Hand Held Eyebath – single 90°

New ergonomic / aesthetic hand eye showers with “soft grip” for good hand placement and easy use.

Available as:

- Wall configuration
- Desk configuration
- Combined with Emergency Shower

Available default in the colors; green and red. And with a single nozzle or double nozzle. Available in various spray angles.

The MB 10 hand Eye Shower / Face Wash Fountain suitable for indoor use. Supplied as standard with black rubber eye cups with hinged dust covers (including pictogram). Because of the soft grip, this hand shower is very good positioned in the hand and the operation is very simple. Operation is done by a control button in the handle and blocks itself so that it automatically continues to flush. Of course, the hand shower is also easy to unblock and the eye shower immediately stops rinsing. The plastic bracket supplied can be used for wall mounting, as well as desktop setup. This hand shower can also be combined with an emergency or body shower. The dust cap is hinged and can easily be replaced after use. The eye shower is available with a single nozzle or double nozzle. The MB 10 is available in the colors green and red. The hand shower is equipped with an automatic flow regulator and a non-returning valve. Minimum water pressure is 2 Bar.
