

## Description

The MB 75 Eyebath / Face Wash Fountain has an “unbreakable” ABS bowl and hinged lid (including sign), suitable for indoor use and wall mounting. The lid is at the same time the operation of the Eyebath (pull backwards up and the water starts running). When the lid is pushed back and closed the eyebath stops automatically. Because of this hinged lid the Eyebath remains clean and hygienic. The Eyebath is equipped with diffusers (optional supplemented with black rubber Eye cups). These diffusers give a gentle aerated soft spray pattern which feels pleasant for the eyes. A drain is present on the bowl. Also a Flow regulator is present on the unit in order to achieve a good spraying pattern. The Eyebath can have an option that the Eyebath drains empty after usage. Another possibility is an extra hand held Eyebath at the side of the MB75. On the interior of the lid a mirror is present. This model is a larger version of the MB50. Minimum water pressure is 2 bar.

MB75

## Specifications

- Water connection: 15 mm compression fitting or ½" BSP Male or 12 mm "Push / Speed - Fit" or different on your request water
- pressure 2 bar
- water supply: 12 liter per minute
- manual operation by means of the lid
- flow regulator
- filters
- sign(green)
- dimensions 440x560x350 mm (WxDxH)
