

Description

The MB 200 Emergency Safety Shower / Body Shower or Drench Shower / Deluge Shower suitable for Wall mounting and Outdoor use. Special Shower head (spray angle 60° and gives rotation to the water) for an effective and efficient operation. Stainless Steel operation Pull rod for activation. Water supply external (pointing to the right, left, top or bottom) or through the wall behind the wall mounting plate (through the wall mounting plate). The Safety Shower is insulated and has electrical heat tape tracing (on request the tracing can be omitted). The unit can be mounted on the wall by a mounting plate. Minimum water pressure is 2 bar. Electricity standard 230V / 60Watt (different voltage connections on request).

There is also the possibility to protect the water supply pipe against frost with the [extra tracing](#) or the [MB 700](#).
