

Description

The MB 250 – 20 Emergency Safety Shower / Body Shower or Drench Shower / Deluge Shower on a stand pipe, suitable for outdoor use (frost protected) and floor mounting and has an additional hip / body nozzle / sprayer (two water outlets). One horizontal sprayer (hip height) and one vertical sprayer (overhead). Special Shower head (spray angle 60° and gives rotation to the water) for an effective and efficient operation. Stainless Steel operation Pull rod for activation. Standard we have a bottom water inlet, but this can be changed to any Position. The insulated stand pipe is equipped with heat tracing (on request the tracing can be omitted). The unit can be mounted on the floor by a mounting plate. Minimum water pressure is 2 bar. Electricity standard 230V / 60Watt (different voltage connections on request).

There is also the possibility to protect the water supply pipe against frost with the [extra tracing](#) or the [MB 700](#).

MB 250 20

Specifications

- Water connection: 1¼" BSP Male or different on your request
- water pressure 2 bar
- Water supply: 60 or 80 liter per minute
- manual operation
- color: different colors
- material: galvanized steel, Stainless Steel, brass, plastic, Floor mounting plate 230x230 mm, holes 4xø15 mm H.t.H. 180 mm
- meets the following standards: CE EN 15154 & ANSI Z 358.1
