

AC Battery Pack 42 V small

Description

Power given to the magnet 42V/50Hz AC

Charging between 100 and 230V 50Hz

Outer dimensions 115x115x255mm

Weight approx 4 kg.

Housing aluminium

Gives 2,5 hours power continuously

Will be delivered hip bag and can be connected also be to a backpack

Advantages of the battery pack

- Charging from 100 till 230V
- It is a AC power supply instead of a DC power supply (AC gives a skin effect what you need by magnetic inspection) DC is the same as a permanent magnet
- Gives enough power for inspection day
- Overload protection
- Gives an audio and a visual signal when battery is nearly empty
